

# METHANOL HOLDINGS (TRINIDAD) LIMITED

## SAFETY DATA SHEET Urea-Ammonium Nitrate Solution 28, 30% and 32% Solution

### SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

#### 1.1 Product identifier

**Product name:** Urea-Ammonium Nitrate Solution

**Product codes(s):** Urea-Ammonium Nitrate Solution

**Synonym(s):** UAN, UAN Solution

**REACH Registration Number:** This product has been registered according to Regulation (EC) 1907/2006.

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**General use:** Fertilizer

**Uses advised against:** No uses advised against

#### 1.3 Details of the supplier and of the safety data sheet

##### Manufacturer/Distributor

Methanol Holdings (Trinidad) Limited  
Atlantic Avenue, Point Lisas Industrial Estate  
Point Lisas, Trinidad, West Indies  
+1-868-636-2906/9

##### Non-Emergency Contact

North America: Helm Fertilizer Corporation, +1-813-621-8846  
Europe: Helm Düngemittel GmbH, +49 40 2375-1628  
Trinidad: Methanol Holdings (Trinidad) Limited +1-868-636-2906

#### 1.4 Emergency telephone number

**North America** Chemtrec: +1-800-424-9300

**Europe** Giftinformationszentrum Nord: 011-49-551-19240

**Trinidad** Industrial Plant Services Limited: +1-868-636-1251

### SECTION 2 - HAZARDS IDENTIFICATION

#### 2.1 Classification of substance or mixture

**Product definition:** Mixture

**Classification in accordance with 29 CFR 1910 (OSHA HCS) and Regulation (EC) No 1272/2008**

Not a dangerous substance according to OSHA or to European Union Legislation

#### 2.2 Label Elements

Not a dangerous product according to OSHA HCS or GHS

### SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1 Substances

Not applicable

#### 3.2 Mixtures

% by Weight	Ingredient	CAS Number	EC Number	Index Number	EC Classification	GHS Classification
30 - 50	Ammonium Nitrate	6484-52-2	229-347-8	-----	O, R8; Xi, R36	H272, H319
25 - 45	Urea	57-13-6	200-315-5	-----	-----	-----

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

### SECTION 4 - FIRST AID MEASURES

#### 4.1 Description of first aid measures

**Inhalation:** If product spray or mist causes respiratory irritation or distress, move the exposed person to fresh air immediately. If breathing is difficult or irregular, administer oxygen; if respiratory arrest occurs, start artificial respiration by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. If symptoms persist, seek medical attention.

**Eyes:** Immediately flush eyes with large amounts of water for 15 minutes, occasionally lifting upper and lower lids. Remove contact lenses, if present after the first 2 minutes and continue rinsing. Obtain immediate medical attention, preferably from an ophthalmologist.

**Skin:** Flush skin with large amounts of water while removing contaminated clothing, and continue rinsing for at least 15 minutes. Wash affected area with soap and water. Wash contaminated clothing and shoes thoroughly before reuse. If irritation persists, seek prompt medical attention.

**Ingestion:** Rinse mouth with water if the victim is conscious. Remove dentures, if present. Do not induce vomiting unless directed to do so by medical personnel. Give 2 to 3 cupfuls of milk or water to drink if the victim is conscious, alert and able to swallow. Never give anything by mouth to an unconscious or convulsing person. Do not leave the victim unattended. Get medical attention immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

##### Potential health symptoms and effects

**Eyes:** Causes serious eye irritation characterized by redness, burning sensation, pain, blurred vision, tearing and swelling.

# METHANOL HOLDINGS (TRINIDAD) LIMITED

**Skin:** May cause skin irritation with localized redness, itching and discomfort.

**Inhalation:** Inhalation of mist or spray may be irritating to mucous membranes and to the respiratory system.

**Ingestion:** May cause gastrointestinal irritation with nausea, vomiting, abdominal pain and diarrhea. May be harmful if swallowed.

**Chronic:** Prolonged and repeated contact may cause dermatitis.

#### 4.3 Indication of any immediate medical attention and special treatment needed

**Advice to Doctor and Hospital Personnel:** In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. Treat symptomatically and supportively.

## SECTION 5 - FIRE FIGHTING MEASURES

### 5.1 Extinguishable media

**Suitable methods of extinction:** Use media such as water fog, water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

**Unsuitable methods of extinction:** None known

### 5.2 Special hazards arising from the substance or mixture

Closed containers may explode due to the buildup of pressure when exposed to extreme heat. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent or may be delayed. Obtain medical attention.

**Explosion hazards:** This material in sufficient quantity and reduced particle size is capable of creating a dust explosion. Risk of explosion is and solid ammonium nitrate when sensitized during decomposition may become unstable or explosive.

### 5.3 Advice for firefighters

Responders should stay upwind. Full protective equipment including self-contained breathing apparatus should be used (HAZMAT suits). Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat. If possible, firefighters should control runoff water to prevent environmental contamination.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

Wear appropriate protective clothing designated in Section 8. Ventilate the area. Remove all sources of ignition. No smoking. Evacuate non-essential personnel from the hazard area.

### 6.2 Environmental precautions

Do not flush to sewer. Avoid dispersal of spilled material or runoff and prevent contact with soil and entry into drains, sewers or waterways.

### 6.3 Methods and materials for containment and cleaning up

Cover drains and contain spill. Cover with a large quantity of inert absorbent. Do not use combustible material such as sawdust. Collect product and place in an approved container for proper disposal. Observe possible material restrictions (Sections 7.2 and 10.5). Do not allow material or runoff from rinsing contaminated areas to enter storm drains and ditches which lead to waterways. Dispose of waste in accordance with national and local regulations. Clean contaminated area with soap and water.

### 6.4 Reference to other sections

For indications about waste treatment, see Section 13.

## SECTION 7 - HANDLING AND STORAGE

### 7.1 Precautions for safe handling

Wear all appropriate personal protective equipment specified in Section 8. Do not get in eyes or on skin or clothing. Do not breathe mist or vapor. If normal use of material presents a respiratory hazard, use only adequate ventilation or wear an appropriate respirator.

#### Advice on protection against fire and explosion

Solution does not present a fire or explosion hazard. Refer to Section 5.2.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10.5), food and drink. Transfer only to approved containers having correct labeling. Keep containers tightly closed. Protect container against physical damage. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Containers of this material may be hazardous when empty as they retain product residues. Use appropriate containment to avoid environmental contamination. Ventilate closed areas. Do not take internally. Keep out of reach of children.

### 7.3 Specific end uses

Apart from the uses mentioned in Section 1.2, no other specific uses are stipulated.

## SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

### 8.1 Control parameters

Contains no substances with occupational exposure values.

# METHANOL HOLDINGS (TRINIDAD) LIMITED

## 8.2 Exposure controls

**Engineering Measures:** Technical measures and appropriate working operations should be given priority over the use of personal protective equipment. Use adequate ventilation. Local exhaust is preferable. Refer to Section 7.1.

**Individual protection measures:** Wear protective clothing to prevent repeated or prolonged contact with product. Protective clothing needs to be selected specifically for the workplace, depending on concentrations and quantities of hazardous substances handled. The chemical resistance of the protective equipment should be enquired at the representative supplier.

**Hygiene measures:** Facilities storing or using this material should be equipped with an eyewash station and safety shower. Change contaminated clothing. Preventive skin protection is recommended. Wash hands thoroughly after use, before eating, drinking or using the lavatory.

**Eye/face protection:** Wear protective chemical goggles and a face shield use. Refer to 29 CFR 1910.133, ANSI Z87.1 or European Standard EN 166.

**Hand Protection:** Wear gloves recommended by supplier for protection against materials in Section 3. Gloves should be impermeable to chemicals and oil. Breakthrough time of selected gloves must be greater than the intended use period.

**Other protective equipment:** Wear protective clothing. Wear protective boots if the situation requires.

**Respiratory Protection:** Always use an approved respirator when vapor or fumes are generated. Where risk assessment shows air-purifying respirators are appropriate use a full-faced respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

**Environmental exposure controls:** Do not empty into drains.

*PPE must not be considered a long-term solution to exposure control. PPE usage must be accompanied by employer programs to properly select, maintain, clean fit and use. Consult a competent industrial hygiene resource to determine hazard potential and/or the PPE manufacturers to ensure adequate protection.*

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

<b>Appearance</b>	Clear, colorless liquid
<b>Odor</b>	Mild ammonia odor
<b>Odor Threshold</b>	No data available
<b>Molecular Weight</b>	Not applicable
<b>Chemical Formula</b>	Not applicable
<b>pH</b>	6.8 - 7.5
<b>Freezing/Melting Point, Range</b>	-27 °C (-16.6 °F)
<b>Boiling Point</b>	107 °C (224.6 °F)
<b>Evaporation Rate</b>	Not applicable
<b>Flammability (solid, gas)</b>	No data available
<b>Flash Point</b>	No data available
<b>Autoignition Temperature</b>	Not applicable
<b>Decomposition Temperature</b>	No data available
<b>Lower Explosive Limit (LEL)</b>	Not applicable
<b>Upper Explosive Limit (UEL)</b>	Not applicable
<b>Vapor Pressure</b>	No data available
<b>Vapor Density</b>	No data available
<b>Density</b>	1.3 g/cc (10.85 lb/gal) @ 15 °C
<b>Solubility in Water</b>	Complete
<b>Partition Coefficient: n-octanol/water</b>	<1
<b>Viscosity</b>	No data available
<b>Volatiles by Volume @ 21° C</b>	>67%

### 9.2 Other data

No data available

## SECTION 10 - STABILITY AND REACTIVITY

### 10.1 Reactivity

No hazardous reactions expected when handled and stored as recommended.

### 10.2 Chemical stability

Stable under recommended storage conditions and handling.

### 10.3 Possibility of hazardous reactions

Hazardous polymerization will not occur.

### 10.4 Conditions to avoid

Temperature extremes; contact with incompatible materials

# METHANOL HOLDINGS (TRINIDAD) LIMITED

## 10.5 Incompatible materials

Reducing agents, strong acids and bases, metal powders, combustible materials, chromates, zinc, copper and copper alloys, chlorates

## 10.6 Hazardous decomposition products

Thermal decomposition products include carbon oxides, nitrogen oxides, ammonia, amines

## SECTION 11 - TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

#### Acute Oral Toxicity

Ammonium nitrate: LD<sub>50</sub>, rat - 2,950 mg/kg

Urea: LD<sub>50</sub>, rat: 14,300 mg/kg

#### Acute inhalation toxicity

No data available

#### Acute dermal toxicity

No data available

#### Skin irritation

May cause skin irritation.

#### Eye irritation

Causes serious eye irritation.

#### Sensitization

No data available

#### Genotoxicity

No data available

#### Mutagenicity

No data available

#### Specific organ toxicity - single exposure

No data available

#### Specific organ toxicity - repeated exposure

No data available

#### Aspiration hazard

No data available

### 11.2 Further information

The components in this product are not listed as carcinogens by ACGIH, IARC, NTP or OSHA. No data is available regarding the mutagenicity or teratogenicity of this material, nor is there any available data that indicates it causes adverse developmental or fertility effects.

Handle in accordance with good industrial hygiene and safety practice.

## SECTION 12 - ECOLOGICAL INFORMATION

### 12.1 Toxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment

### 12.2 Persistence and degradability

Expected to be readily biodegradable

### 12.3 Bioaccumulation potential

Not expected to bioaccumulate

### 12.4 Mobility in soil

Mobility in soil is expected to be very high based.

### 12.5 Results of PBT and vPvB assessment

Not applicable

### 12.6 Other adverse effects

#### Additional ecological information

Do not allow material to run into surface waters, waste water or soil.

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

## SECTION 13 - DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

**Methods of disposal:** The generation of waste should be avoided or minimized whenever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a

# METHANOL HOLDINGS (TRINIDAD) LIMITED

licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

**Hazardous waste:** The classification of this product may meet the criteria for a hazardous waste.

## SECTION 14 - TRANSPORT INFORMATION

**Note:** Transportation information provided is for reference only. Customer is urged to consult 49 CFR 100 - 177, IMDG, IATA, EC, United Nations TDG and WHMIS (Canada) TDG information manuals for detailed regulations and exceptions covering specific container sizes, packaging materials and methods of shipping.

**NOT REGULATED FOR TRANSPORT**

## SECTION 15 - REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations/legislation specific for substance or mixture

#### U. S. Federal Regulations

**OSHA Hazard Communication Standard:** This material is not classified as hazardous in accordance with OSHA 29 CFR 1910.1200.

**TSCA Status:** All components of this product are listed on the TSCA Inventory. It is not subject to TSCA 12(b) Export Notification.

#### **Superfund Amendments and Reauthorization Act (SARA)**

**SARA Section 311/312 Hazard Categories:** Acute Health Hazard

**SARA 313 Information:** None of the chemicals in this product exceed the threshold (de minimis) reporting levels established by Section 313 of the Emergency Planning and Community Right-to Know Act of 1986.

**SARA 302/304 Extremely Hazardous Substance:** None of the chemicals in this product are subject to reporting requirements of these sections of Title III of SARA.

**SARA 302/304 Emergency Planning & Notification:** None of the chemicals in this product are subject to reporting requirements of these sections of Title III of SARA.

**Comprehensive Response Compensation and Liability Act (CERCLA):** This product contains no CERCLA reportable substances.

#### **Clean Air Act (CAA)**

This product does not contain any Hazardous Air Pollutants (HAPs) designated in CAA Section 112 (b).

This product does not contain any Class 1 Ozone depleters.

This product does not contain any Class 2 Ozone depleters.

#### **Clean Water Act (CWA)**

None of the chemicals in this product are listed as Hazardous Substances under the CWA.

None of the chemicals in this product are listed as Priority Pollutants under the CWA.

None of the chemicals in this product are listed as Toxic Pollutants under the CWA.

#### U.S. State Regulations

##### **California Prop 65, Safe Drinking Water and Toxic Enforcement Act of 1986**

This product contains no chemical(s) known to the State of California to cause cancer, birth defects or other reproductive harm.

##### **Other U.S. State Inventories**

Ammonium nitrate (CAS #6484-52-2) is listed on the following State Hazardous Substance Inventories, Right-to-Know lists and/or Air Quality/Air Pollutants lists: DE, MA, NJ, RI, PA.

#### Canada

**WHMIS Hazard Symbol and Classification:** None allocated

**Canadian National Pollutant Release Inventory (NPRI):** None of the ingredients are listed on the NPRI.

#### European Economic Community

##### **Classification (67/548/EEC to 1999/45/EC)**

Not a hazardous substance according to EC directives 67/458/EEC or 1999/45/EC.

**WGK, Germany (Water danger/protection):** 1

#### Global Chemical Inventory Lists

Country	Inventory Name	Inventory Listing*
Canada:	Domestic Substance List (DSL)	Yes
Canada:	Non-Domestic Substance List (NDSL)	No
Europe:	Inventory of New and Existing Chemicals (EINECS)	Yes
United States:	Toxic Substance Control Act (TSCA)	Yes
Australia:	Australian Inventory of Chemical Substances (AICS)	Yes

\*Yes - All components of this product are in compliance with the inventory requirements administered by the governing country.

No - One or more components of this product are not on the inventory and are not exempt from listing.

## Global Chemical Inventory Lists (continued)

Country	Inventory Name	Inventory Listing*
<b>New Zealand:</b>	New Zealand Inventory of Chemicals (NZIoC)	Yes
<b>China:</b>	Inventory of Existing Chemical Substances in China (IECSC)	Yes
<b>Japan:</b>	Inventory of Existing and New Chemical Substances (ENCS)	Yes
<b>Korea:</b>	Existing Chemicals List (ECL)	Yes
<b>Philippines:</b>	Philippines Inventory of Chemicals and Chemical Substances (PICCS)	Yes

\*Yes - All components of this product are in compliance with the inventory requirements administered by the governing country.

No - One or more components of this product are not on the inventory and are not exempt from listing.

## 15.2 Chemical safety assessment

For this product a chemical safety assessment was not carried out.

## SECTION 16 - OTHER INFORMATION

### Hazardous Material Information System (HMIS)

Health	2
Flammability	1
Physical Hazard	0
Personal Protection	C

### HMIS and NFPA Hazard Rating Legend

\* = Chronic Health Hazard      2 = MODERATE  
 0 = INSIGNIFICANT                3 = HIGH  
 1 = SLIGHT                            4 = EXTREME

### National Fire Protection Association (NFPA)

#### Flammability

### Full text of GHS Hazard Phrases referenced in Section 3.

H272 - May intensify fire; oxidizer

H319 - Causes serious eye irritation

### Full text of Risk (R) Codes referenced in Section 3.

R8 - Contact with combustible material may cause fire.

R36 - Irritating to eyes.
